

Better World Energy, Inc.

Carbon Offset Certificate

Wind Energy Generation - 1,000 kWh

Carbon Offset Amount - 1,341 lbs.

In order to offset the emissions generated by your web traffic,

This title certifies that Hikespeak.com is the owner of all rights, title and interest in and to the complete environmental attributes and credits, including air emission and carbon reduction credits to the extent such credits exist or arise, from and for renewable energy generated electricity produced during the stated period in the stated amount.

Better World Energy hereby verifies that the carbon offset stated above was created by the amount of wind energy generated electricity produced and delivered to the pooled electric transmission facilities operated by the PJM Interconnection in the mid-Atlantic region of the United States, and further warrants that the holder of this carbon offset certificate is the exclusive holder of the environmental attributes and credits associated with the verified renewable energy generated electricity production and delivery.

In witness whereof, Better World Energy, Inc., a California Company, has caused this certificate to be signed and sealed by its authorized agent.

Alice McNeely, Vice President & Secretary

Certificate Number: 251360-10293
